District of Nipissing Social Services Administration Board

Health & Human Services

MISSION:

Committed to promoting and enhancing healthy communities, and strengthening and empowering their citizens.

WHAT WAS HOLDING THEM BACK?:

Used an outdated and costly system that made them rely on Excel spreadsheets to complete most tasks. Reporting was a hassle since the legacy software did not easily support basic accounting transactions and reporting. Everything took a long time. System was not user friendly and delayed the simple process of retrieving financial information.

HOW WE HELPED:

Sparkrock's Finance and Accounting solution that was implemented solved all the reporting problems. Their new system can integrate with other systems to make importing and exporting data simple and fast, while providing real-time numbers.

HOW THEY NOW LEVERAGE TECHNOLOGY TO SERVE MORE PEOPLE:

DNSSAB reduced immediate accounting costs by \$20,000 and realized significant improvements in efficiency. Virtually eliminated human errors of keying in information, and their reporting became a breeze! They've reduced the reporting time from a month to usually less than 2 days. Save approx.. \$50,000 per year.

// We deal with many different government funders and Sparkrock's financial solution gives us the flexibility to get the required information reported properly, accurately and fast. It's wonderful and liberating to be confident that our information is correct. //

- Sara Tonks, Director of Finance and Administration
