

CASE STUDY

Huron-Perth Catholic District School Board

Educational Organizations

MISSION:

The Huron-Perth Catholic District School Board is fervently committed to high standards for achievement in teaching and learning.

We are very proud of the quality of instruction within all schools and our commitment to inclusive learning spaces that provide differentiated opportunities for growth and development.

We honour the covenant between the home, school and parish to embrace shared leadership and the wellness of the students entrusted to our care.

WHAT WAS HOLDING THEM BACK:

Integrated our Manage - Finance and Accounting and Manage - HR/Payroll solutions.

HOW WE HELPED:

Sparkrock supported Huron-Perth through the transition by constantly reassuring them with meetings and phone calls that they were on track with their implementation.

Sparkrock also sent Application Consultants on site to help their team navigate the new software and the particular intricacies it holds for school boards.

During the upgrade, the Sparkrock Customer Success team made numerous recommendations.

HOW THEY NOW LEVERAGE TECHNOLOGY TO SERVE MORE PEOPLE:

With their upgraded finance and HR/payroll solution, Huron-Perth is now able to do dimension validation at the time of posting, which has been an incredible time-saver.

/// The solution is great because any time that can be saved between me and my team means that we have more time to provide support out in the schools to our portal users, to our department heads, and to our office assistants. ///

- Mary-Ellen Ducharme, Manager of Finance
